LICENSED NURSERY

We wish to thank all our friends and customers for the steadily increasing business you have given us and hope to have bulbs for you again next season. However, war conditions make everything rather uncertain. Help will be impossible to get as all labor is needed for the war effort.

More people are planning on flower and vegetable gardens this year than ever before as the tire and gas situation will keep them at home. We are already sold out of several varieties and cannot include them in our list. We have been increasing our planting each year to keep pace with sales, but any increased planting this spring is out of the question. Many of the younger bulb growers are out of business and in the army, if physically fit for that duty, and the large wholesale growers are just out of luck. In the big bulb growing districts last fall many millions of bulbs froze in the ground for lack of labor. So that is why bulbs are scarce this spring, and next year there will be still less. No matter where you buy your bulbs and garden seeds this spring, early ordering is advisable—you get the pick of the stock and are more sure of getting what you order.

This list contains PREPAID prices and short reliable description of Glads found satisfactory in our gardens. We believe you will find our prices as low or lower than quoted elsewhere for good NORTHERN GROWN Bulbs.

We grow many Glads not listed here. If you do not find in this list what you wish, we may have it in small quantity or can obtain it for you at a reasonable price. Quotations given on No. 5 and No. 6 planting stock and bulblets; give variety and quantity wanted.

TRUE TO NAME; HEALTHY YOUNG BULBS
INSPECTED AND LICENSED FOR SALE BY THE NORTH DAKOTA STATE NURSERY INSPECTOR

Trade Sizes of Bulbs:

No. 1-----	1½ inch or more
No. 2-----	1¼ inch to 1½ inch
No. 3-----	1 inch to 1¼ inch
No. 4-----	¾ inch to 1 inch
No. 5-----	½ inch to ¾ inch
No. 6-----	under ½ inch

Standard trade practice is to list as follows:
Nos. 1 and 2 are large bulbs
Nos. 3 and 4 are medium bulbs
Nos. 5 and 6 are small bulbs.

Our bulbs are graded accordingly, except we do not ship any No. 6's with the small. If you want No. 6 bulbs, you should only pay what they are worth. Largest bulbs of the grade ordered, which we have on hand, are shipped. Large bulbs are generally planted for exhibition spike growing. Medium are usually bought by the commercial cut-flower growers, and with most of the varieties will give nearly as good a spike as the large size; and at a very considerable saving. Small bulbs (No. 5) of most kinds give fair bloom and make fine bulbs for next year and yield most bulblets; but bloom later than medium and large. Days-to-bloom given for most varieties are for large bulbs, are approximate and for comparison only. 70 days is a very early Glad, over 105 days is late for this region.

TERMS: CASH WITH ORDER, PLEASE. NO SINGLE ITEM LESS THAN TEN CENTS, OR ORDER LESS THAN ONE DOLLAR. Remittance may be made by Postal or Express Money Order and Money Order fee allowed for in extra bulbs. Not responsible for currency in unregistered letters. WE ACCEPT WAR SAVINGS STAMPS THE SAME AS CASH.

All stock offered and orders accepted subject to prior sale.

5 BULBS at 10 RATE! ALL PRICES in this list are PREPAID to you. Generous count and extras on all orders. The larger the order, the more extras.

NO SUBSTITUTION OF VARIETIES WITHOUT PERMISSION.

Orders shipped PREPAD after March 30th. Or when weather permits. Orders of \$5.00 or more may be shipped by EXPRESS PREPAID whenever purchaser desires, as Express is insured against freezing. Parcel Post is not insured against frost.
